ABOUT US

Located in Beyşehir-Konya-Turkey, TOROS ARMS started its production facility in 1996 as Koroğlu Hunting Industry and Trade Limited Company. Changing its commercial title as Toros hunting industry and trade limited company, it continued its production. In the following period, by increasing the capital, taken the name of Toros Construction Automotive Food Industry and Trade Limited Company and still continues its commercial activities under this name.

Since its establishment, adopted customer satisfaction as its number one priority, our company continues its facility with the principle of meeting all kinds of shotgun needs at the most reasonable price policy without compromising on quality.

We also work with the OEM manufacturers that are qualified and eligible to C.I.P, SAAMI and TSE Quality test standards.

The product range covers single barrel, pump-action, semi-automatic, over and under, and vertical magazine fed shotguns.

As TOROS ARMS, it's one of our principles to use high quality raw materials which matches world standard in arms production. TOROS ARMS provides full customer service for all its brands. We are open to hear from you any kind of feedback. We know that any criticism will lead us to excellence.

Our Mission

Having the state of art technology in its facility, to make production that will ensure 100% satisfaction of every customer who is an end-user, importer or distributor.

Our Vision

To be a company known and recommended in every continent of the world with the shotguns and accessories that we produce in a way we love.
